

Call for Papers

The 47th Scientific-Technical Annual Meeting of the German Society for Photogrammetry, Remote Sensing, and Geoinformation (DGPF) will take place from **19-21 May 2027, in Hannover**. Local organisers are the Institute of Photogrammetry and GeoInformation (IPI) and the Institute of Cartography and Geoinformatics (ikg) of Leibniz University Hannover. On the first day, 19 May, the DGPF Young Professionals Network will organise the 2027 edition of the networking event, nachwuchs-netzwerk@dgpf.de.

Scientists, developers, and users in **photogrammetry, remote sensing, and geoinformatics** are invited to submit contributions for the conference, initially in the form of abstracts (in German or English). The abstract should have a maximum length of 500 words. It should describe (i) motivation/problem statement, (ii) method/investigation, and (iii) results. All submissions will undergo a review process. Accepted contribution will be presented as oral presentations or as posters.

Poster submissions are explicitly encouraged. Please indicate, at the time of submission, whether you prefer presenting your contribution an oral presentation or a poster. Each poster will also be presented in a short talk.

Upon acceptance of the abstract, a full paper (5-12 pages) should be submitted for the conference proceedings adhering to the provided paper template. The proceedings will be published online; all contributions will receive a DOI after the conference. For each submission, at least one participant must be registered for the meeting by the Early Bird deadline.

The two best contributions published in the conference proceedings will receive the **Photogrammetry Award** and the **Remote Sensing Award**, respectively, sponsored by the **Nico Rüpke Foundation Hamburg**. Each prize is worth **1000 EUR** and also includes travel expense assistance.

Information for submissions to be included in the selection for the **Karl Kraus Young Talent Award 2027** can be found at http://www.dgpf.de/pri/kkp.html.

The submission of abstracts and papers should be done using the conference management system ConfTool: www.conftool.pro/jt2027. All further information about the event will be provided on the conference homepage: *www.dgpf2027.uni-hannover.de*, which will be continuously updated.

Important dates

* 15.01.27 Deadline for abstracts for presentations/posters at the conference
* 31.01.27 Deadline for applications for the Karl Kraus Young Talent Award 2027
* 15.02.27 Notification of acceptance of proposed contributions
* 31.03.27 Deadline for submitting full papers for the online conference proceedings
* 15.04.27 Deadline for Early Bird registration
* 19.05.27 Event organized by the DGPF Young Professionals Network
* 19.-21.05.27 47th DGPF Scientific-Technical Annual Meeting

We look forward to welcoming you to Hannover!
