

## DGPf Annual Conference – Darmstadt, March 25-27, 2026

### Call for Papers

The **46th Scientific-Technical Annual Conference** of the German Society for Photogrammetry, Remote Sensing, and Geoinformation (DGPf) will take place from **March 25 to 27, 2026, in Darmstadt**. It will be organized locally by the Remote Sensing and Image Analysis division of TU Darmstadt.

Preceding the conference, there will be an event organized by the DGPf Young Professionals Network on **March 25, 2025**, and a Summer School jointly organized with the Polish Society for Photogrammetry and Remote Sensing (PTFiT) on **March 23 and 24, 2025**.

Scientists, developers, and users in photogrammetry, remote sensing, and geoinformatics are invited to submit contributions for the conference, initially in the form of **abstracts**. Upon acceptance of the abstract, a **full paper (5-12 pages)** should be submitted for the conference proceedings. The proceedings will be published online, and all contributions will receive a DOI after the conference.

All submissions will undergo a **review process**.

The **abstract** for a presentation/poster submission should be a maximum of **500 words**. It should describe (i) motivation/problem statement, (ii) method/investigation, and (iii) results.

**Poster submissions are explicitly encouraged**. Please indicate at the time of submission whether the contribution is desired as a poster or a long presentation. Each poster will also be presented in an approximately 6-minute short talk.

The two best contributions in the conference proceedings will be awarded the **Photogrammetry Prize** and the **Remote Sensing Prize** by the Nico Rüpke Foundation Hamburg, respectively. Each prize is endowed with **1000 EUR** and also includes travel expense assistance.

Information for separate submissions as applications for the **Karl Kraus Young Talent Award** can be found at <http://www.dgpf.de/pri/kkp.html>.

The submission of proposed contributions and the elaborated papers must be done exclusively through the conference management system **"ConfTool"**. All further information about the event will be provided and continuously updated on the conference homepage: <https://dgpf.de/con/jt2026.html>.

#### Important Dates

November 30, 2025:	Deadline for abstracts for presentations/posters at the conference
November 30, 2025:	Deadline for applications for the Karl Kraus Young Talent Award 2026
December 15, 2025:	Notification of acceptance of proposed contributions
January 31, 2026:	Deadline for submitting full papers for the online conference proceedings
February 15, 2026:	Inclusion of full papers in the online conference proceedings, provided at least one of the authors has registered for the conference (early bird deadline)
March 23-24, 2026:	German-Polish Summer School organized by DGPf and PTFiT
March 25, 2026:	Event organized by the DGPf Young Professionals Network
March 25-27, 2026:	46th Scientific-Technical Annual Conference of the DGPf in Darmstadt

***We look forward to welcoming you to Darmstadt!***
